A note of thanks

Faten Hassan Abdelazeim*

At the end of this remarkable year, I wish to express my sincere gratitude, also on behalf of the other editors, the members of the editorial board and the publisher of the Bulletin of Faculty of Physical Therapy, to the referees of the articles considered for the 2021 volume of BFPT. Hundreds of busy colleagues have spent their time in assessing close to 126 manuscripts submitted to our Journal, up from around 63 in 2020, in selecting the ones that may possibly be published, and in improving the quality of the selected articles. Many of the reviewers have helped us in the past years as well, and we are tremendously appreciative and grateful to them. It is largely thanks to them that BFPT is doing well in attracting and publishing valuable topics of physical therapy and rehabilitation including original research, clinical effectiveness, and emerging technologies in assessment and treatment.
